## 2023 Qualifications

Qualifying participants can receive up to \$3,000 per grower, per year. There is a three-year cap on practices, per field.

- Low disturbance manure injections or surface applications must be less than 10,000 gallons/ac.
- Grazing may include costs like: fencing, water systems, seed etc., to convert suitable areas to long-term pasture. Receipts must be submitted.
- The equipment conversion stipend helps to update Planting Equipment that successfully lessens soil disturbance; receipts and photos must be submitted.
- Nutrient testing may include: forage, manure, pre-sidedress Nitrate, tissue samples and biomass. Results and receipts must be submitted.

**In order to receive Incentive Payments of any kind, field maps and a signed contract form must be submitted, acknowledging the payment for implementing soil health practices.**

### Don't Forget the County Ag-Rental Equipment

# 2023 SOIL HEALTH INCENTIVES CLEAN FARM FAMILIES

**The Ozaukee County Land & Water Management Dept. and The Clean Farm Families**

will again offer incentives to farmers looking to improve their soil health, lower input costs and increase farm profitability.

These incentives are offered to qualifying landowners in The Clean Farm Families Project Area, which is county wide. All reimbursements for implemented practices will be paid in December 2023 upon completion of the practice, and submission of signed contract and maps.
